Alumni network of 68,000 spread over 132 countries

A PRESTIGIOUS GLOBAL PARTNERSHIP

The TRIUM Global Executive MBA is delivered jointly by three of the world's leading universities. Each renowned in their own right, together their combined academic firepower gives TRIUM students a unique educational experience through a blended learning model shaped around the needs of senior executives: intensive in-person modules in global locations, with online work in between.

Each school has its own specialism that forms the backbone of the curriculum taught there.

In addition, TRIUM students spend classroom time in California covering technology megatrends with the tech giants of Silicon Valley, in Singapore, studying the business environment in China and Asia, and in the dynamic and rapidly transitioning Middle East.

“

An endorsement from TRIUM, backed by three global education powerhouses, is a huge boost to my credibility.

OUR PROGRAM IS TAILORED TO YOUR INDIVIDUAL GOALS AS A SENIOR LEADER:

- Develop world-class strategic and leadership skills, and hone your intellectual decision-making capabilities to deal with complex challenges.
- Maximise your impact and progress your career in your current field.
- Open up new opportunities and transition to a new industry or professional field.
- Launch or scale up your own entrepreneurial business venture.
- Develop a deeper understanding into the geo-political and socio-economic contexts of business decision-making.

“

In my opinion, the unique advantage of TRIUM for women specifically is the exposure to a global network of highly successful and experienced individuals that can truly add value to their development and growth within the corporate or entrepreneurial world.

To stay successful, you need to stay ahead.

Successful business leaders in the 21st century require a mastery of leadership, strategy and business skills – marketing, finance, technology, innovation – along with an understanding of how to see opportunity and thrive in our unpredictable world. Our academic program is purposefully designed to give you this.

AN INTEGRATED CURRICULUM

Our curriculum is curated to address current business trends, political and economic shifts with the aim that TRIUM students are first among their peers to understand the opportunity and risks of the current business world and that of tomorrow.

The curriculum is not just a compilation of courses already offered by each of the three schools, but a set of integrated, carefully curated courses designed specifically for TRIUM.

Six immersive course modules will take you to three continents over 18 months – London, New York, Paris, Singapore, San Francisco and the Middle East.

Tying together an in-depth immersion in geopolitics, financial strategy, technological disruption, marketing, innovation and entrepreneurship, our curriculum builds world-class individual leadership skills, and your capability to drive forward successful and responsible business strategy.

Your learning experience is enhanced in a practical and relevant way through our renowned Capstone Project. Running throughout the modules, you can choose to focus on solving a corporate business challenge or launching your own entrepreneurial concept.

MODULES

Our integrated curriculum means themes from each module are revisited across future modules, reinforcing learning throughout the program.

BUSINESS IN THE GLOBAL POLITICAL ECONOMY

In [Module 1](#) the changing global context within which modern business decisions have to be taken is explored in depth. Our principal emphasis is upon the interaction between economics and politics, or political economy.

Module 1
LONDON

STRATEGY AND FINANCE FOR GLOBAL EXECUTIVES

[Module 2](#) focuses on the technical, quantitative and analytical aspects of business. Courses cover strategy, data analytics, fintech, risk and leadership, delivered by some of NYU Stern's best-rated professors.

Module 2
NEW YORK

MARKETING, LEADERSHIP AND ADVANCED STRATEGY

[Module 3](#) contributes to building an articulated approach to organisational and operational issues which are key to strategy implementation and control.

Module 3
PARIS

TECHNOLOGICAL DISRUPTION AND ENTREPRENEURSHIP

[Module 4](#) focuses on the disruptive nature of technological change for global business leaders in the digital era. We look at the revolutionary changes taking place and the challenges and opportunities they bring for entrepreneurs and businesses.

Module 4
SAN FRANCISCO

A CHANGING ASIA IN THE GLOBAL MARKETPLACE

[Module 5](#) offers a deep immersion into the Asian region. You will study the business environment in China and Asia from a variety of perspectives, including the challenges and opportunities specific to doing business in the region.

Module 5
SINGAPORE

MAKING IT HAPPEN

Building on cross-disciplinary themes that constitute key challenges to senior management, [Module 6](#) provides an opportunity to deal in greater depth with some of the topics that form the core of any MBA curriculum.

Module 6
DUBAI

05.

The Leadership Stream

focuses on a leader's role as a driver of change in an organization.

LEADERSHIP

Running throughout the program, the leadership stream links together academic concepts of organizational behaviour, human resource management and leadership, with personal and career development planning.

You will transform your understanding of leadership, by analysing it from a variety of angles including your personal leadership style, the dynamics of team leadership, and the particular challenges of leading organizations effectively.

The stream is complemented by guest speakers sharing their personal leadership stories during the program, and culminates in Module 6 which focuses on individual self-awareness, as well as actions and values necessary to lead a globally responsible organization.

THE WORLD NEEDS BETTER LEADERS. BE ONE OF THEM.

“

Classes on globalisation are quite different now, with the changing perspectives of world leaders, there is a twist to the way we unlearn and learn globalisation – there is no better place to learn this than from LSE.

The TRIUM Capstone Project is the most immersive of any Executive MBA.

CAPSTONE

TRIUM Capstone Project is an opportunity to apply your program learning to your current business environment, a start-up or a social cause.

A CHALLENGING, REWARDING JOURNEY

The Capstone Project brings your coursework to life in a real-world and potentially life-changing way. As part of a team you will choose a project category and develop a business idea from inception to launch, leveraging the resources of our program and faculty, your classmates and alumni connections.

You'll get the intellectual space, resources and mandate to strike out in a new and innovative direction: the opportunity to take your vision, expertise and experience, and solve a business challenge or identify a strategic opportunity to create something new.

You can expect Capstone to push and challenge you and your team; the intense teamwork will help you form deep and lasting professional and personal connections with your classmates, as rewarding and invaluable as the project outcome itself.

And, whether your interest in our program is to further your career in a major corporation, or give you the confidence to set out on your own, your participation in the project will enable you to do so in ways you may never have considered before.

For a flavour of the type of Capstone projects undertaken, [visit the Project Stories](#) section of our website.

“Capstone will either bring the INTRAprenuer out of you even more or will unearth the ENTREpreneur in you. One is not better than the other. They are just different dynamics and life choices. In TRIUM, the fact is most of us are working for big companies, and will in the end most likely continue to do so – but in a different way than ever before. TRIUM will have changed you.”

The benefits of TRIUM go beyond just the transformational academic program.

GLOBAL ALUMNI NETWORK

By joining our program you will enter a remarkable network of high-achieving global business leaders. The TRIUM Global Executive MBA alumni are among the most qualified and insightful in the international business world. Their varied backgrounds, perspectives and areas of expertise make the TRIUM educational experience – both in and out of the classroom – one of the richest and most rewarding of any executive MBA program.

Dedicated TRIUM alumni activities include both social and lifelong learning events, a regular newsletter, and an annual alumni-led Module 7, held in a different global location each year.

Our students have alumni status at all three schools, so benefit from being part of each alumni community with access to databases, libraries, events, lectures and sports facilities in New York, London and Paris.

PROFESSIONAL DEVELOPMENT

After graduation TRIUM alumni benefit from dedicated career support with TRIUM Professional Development services as well as alliance partner offerings. TRIUM Alumni Professional Development services enable you to continue to develop your career along your chosen path, or plan new professional pathways. Our dedicated TRIUM Services includes Career Webinars, professional development events, coaching and other career services.

TRIUM alumni are able to use the careers services of the three alliance partners (depending on their alumni status with the particular school). These include career workshops, coaching, job posting boards and access to other useful career resources.

LIFELONG LEARNING

All TRIUM Alumni have the opportunity to attend TRIUM classes on current modules after they graduate. This unique feature to TRIUM gives you the ability to update your knowledge with the latest thinking and expand your network even further across TRIUM cohorts.

YOUR ENRICHED JOURNEY

BENEFITS FOR ORGANIZATIONS

Organizations interested in developing key employees for positions of increasing global responsibility should consider TRIUM as a professional development opportunity that provides skills needed to conduct business efficiently in the dynamic global market. Employees participating in our program bring many immediate and long-term benefits to their organizations:

- **Instant return on investment:** newly gained knowledge can be applied immediately in the workplace as the course progresses.
- **Valuable employee retention:** organizations sponsoring their most talented employees brings loyalty and motivation.
- **Entry to global networks:** students tap into the knowledge of the world-class faculty and join a global network of business leaders.
- **Global perspectives:** exposure to new thinking and studying as part of a diverse cohort fosters a global outlook that benefits any organisation.

“

The investment returns are infinite, in my view. The exercise of empowering oneself with a global mindset, solidifying subject matter expertise, while gaining a worldwide network and friendships is priceless.

Our three partner schools are leading the world in business education.

NEW YORK UNIVERSITY STERN SCHOOL OF BUSINESS

NYU Stern is ranked among the leading business schools in the world for its strength in finance and international business. Located close to Wall Street and countless multinational corporate headquarters, NYU Stern has a distinctive edge in the ability to balance business theory with practical experience. With its incomparable location and prestigious reputation, the university has been able to attract top-tier professors from around the globe, as well as distinguished visiting professors from the worlds of business, politics and academia. Many of NYU Stern's leading faculty teach on the TRIUM program.

RAGHU SUNDARAM

DEAN, NYU STERN SCHOOL OF BUSINESS,
UNITED STATES

“ The global business landscape is being reshaped, perhaps more rapidly than ever before in history, presenting international business executives with new challenges but also new opportunities. The TRIUM Global Executive MBA brings a globally diverse and outstanding student body into a program that provides a unique integration of sociopolitical and economic perspectives and transformative ideas from scholars at three world-class institutions.

09.

Our three partner schools are leading the world in business education.

LONDON SCHOOL OF ECONOMICS AND POLITICAL SCIENCE

LSE is one of the foremost social science universities, with worldwide credibility for global socio-political economics. LSE academics from across the globe produce cutting-edge research that directly influences international and national policy debates – a fascinating milieu for TRIUM students. LSE’s expertise in geopolitical perspectives creates world citizens who have deep insight into the contexts of business decision-making. The diverse atmosphere encourages all involved to thoroughly question ideas and seek innovative solutions to the world’s most pressing problems.

MINOUCHE SHAFIK

DIRECTOR, LONDON SCHOOL OF ECONOMICS, ENGLAND

“ The LSE – with its long tradition of bringing the best of social science research and teaching to bear on the problems of the day – is pleased to join NYU Stern and HEC Paris in offering the TRIUM Global Executive MBA. TRIUM sets itself apart from other programs through its focus on the social, political and economic dimensions of today’s global leadership challenges, encouraging a thorough exploration of the changing global context in which modern business decisions are made.

09.

Our three partner schools are leading the world in business education.

HEC PARIS SCHOOL OF MANAGEMENT

Ranked the number one business school for executive education by the Financial Times in 2013, HEC has a long-established tradition of training future managers and leaders. HEC has earned international acclaim for the superior programs and ground-breaking research conducted by its faculty of more than 100 full-time professors. The university prepares TRIUM students to approach today's cross-cultural business world with a sophisticated understanding of management, strategic and organisational issues.

ELOÏC PEYRACHE

DEAN, HEC PARIS SCHOOL OF MANAGEMENT,
FRANCE

“ The TRIUM Global EMBA offers an exceptional combination of academic contents that bring theories and models to life; introspection that helps find the path to become a better leader; and fieldwork projects that offer remarkable opportunities to make things happen. The TRIUM experience will unquestionably expand one's horizon and, in fine, welcome into a life-changing alumni network graduates whose success is a testament to the transformative nature of the program.

MEET THE TALENTED

Mr. Kashio

A success from the class of 2017.

As Managing Director and Head of Business Development for Shiseido Group – the world’s fifth largest cosmetic group operating in over 89 countries – Gonta began his TRIUM journey with the intention of developing a new vision and confidence for his next professional challenge at the company. Two years on, he reflects on his TRIUM journey.

By HRILINA LOCK

Savouring victory the Capstone Cup alongside fellow team members

WHAT WERE YOUR OBJECTIVES IN EXPLORING EXECUTIVE EDUCATION AND WHY DID YOU CHOOSE TRIUM?

Before applying to TRIUM, I was nearing the end of turning around a European business subsidiary and the next responsibility awaiting me was to lead the overhauling of business operations of the entire European region. This was all part of executing a corporate strategy in setting a Japanese-oriented company on course to expanding into global markets and adapting to the fast changing need of consumers.

Before embarking on this challenge, I felt a strong urge to prepare and equip myself as I anticipated it would entail navigating a series of business complexities in different countries with different economic, political and cultural dimensions.

TRIUM shares parallels with Gonta's Japanese company Shiseido's values

WHAT NEW VALUES DID YOU DERIVE FROM YOUR TRIUM JOURNEY?

Modern Japan is built on a history of bringing forward new ideas, technology and values. The inception of Shiseido 145 years history was founded on the principle of generating new value and on which the founder (Arinobu Fukuhara) established the first Western-style pharmacy in Japan.

TRIUM is no different. TRIUM represents a world of fresh ideas, perspectives and values drawn from the interactions with high-calibre professors and highly accomplished professionals from around the world, each having different cultural backgrounds and diverse professional experiences.

The combination of TRIUM's academic rigour, stimulating debates and interactions with the professors and highly accomplished executives contributed much to my learning and development both professionally and personally. The outcome for me was a deeper appreciation of the corporate values of Shiseido, expressed in the company motto: "In Heritage, Excellence, In Diversity, Strength & In Challenge, Growth". This embodies strong parallels to the TRIUM journey.

INNOVATION IS INTEGRAL TO SHISEIDO'S PHILOSOPHY, WITH THIS IN MIND, WHAT WAS YOUR MOST VALUABLE TAKE-AWAY FROM TRIUM?

The most valuable take-away from the Innovation perspective was Corey Phelps' Entrepreneurship and Innovation class in India (Module 4).

The class gave a thorough overview of all the challenges and pitfalls encountered while innovating, and a practical framework to commercialising ideas when scaling a start-up. The timing of this class couldn't have been more appropriate, as it came just as I was establishing a Corporate Venture Capital (CVC) as part of my new

responsibility as Head of the Business Development Department.

TRIUM's strength lies in the ability to draw on such professors' teaching, know-how and guidance which gave me the confidence to establish the CVC. Corey also came to Japan, advised and lectured at my company which was a great booster that fostered the understanding of innovation and created the needed momentum for change and the embracing of innovation.

“if you believe you only live once, TRIUM is well worth the journey.”

The 18 month experience, the learning and the life-long friendship you develop will be an outcome you will cherish for many years to come.

10.

Tamika Jean-Baptiste explains her TRIUM journey.

EXECUTIVE DIRECTOR OF DIVERSITY,
INCLUSION AND BELONGING FOR AMGEN

Tamika Jean-Baptiste

Tamika Jean-Baptiste has established a successful career in the biotech industry with roles in sales, consumer marketing, managed care strategy and product launch functions. With a keen passion to help others achieve their professional goals, she has pursued leadership roles and corporate initiatives focused on career mentoring and support for underrepresented groups. She joined the TRIUM program seeking fresh perspectives on complex business and social issues from the expansive curriculum and the diverse international cohort.

By HRILINA LOCK

COULD YOU TELL US WHAT FIRST ATTRACTED YOU TO THE PROGRAM?

Prior to starting the program, I was seeking to invest more in personal development, to step outside of my extensive bio-pharma environment and into an academic environment that would allow me to bring fresh thinking and perspective to complex business and social issues. With my interest growing in an international assignment, I also knew I wanted a program that was truly global in nature, from the academic experience to the cohort.

What stood out to me was the intentionality of bringing together a diverse cohort and an expansive curriculum that leverages the best from all the institutions. After a strategy and data analytics class visit at NYU, I was impressed by how the high level of engagement from the cohort students which amplified the instructor-led content. It was evident to me then that this was an environment I wanted to be a part of and could see myself thriving in.

HOW DID THE DIFFERENT BACKGROUNDS AND EXPERTISE OF YOUR TRIUM COHORT HELP TO ELEVATE YOUR EXPERIENCE WITH TRIUM?

I expected that the diverse backgrounds and expertise would elevate my experience and the class of 2020 exceeded my expectation. The insights, collaboration, classroom discussions, study groups and Capstone teams pushed me beyond my comfort zone to further challenge status quo. The TRIUM administrators did a phenomenal job creating small group assignments that offered broad exposure for everyone in the cohort.

WHAT WOULD YOU SAY HAVE BEEN YOUR KEY TAKEAWAYS FROM THE PROGRAM?

A greater appreciation for the power of diversity of thought, perspectives and experiences in shaping global inclusive leaders of the future.

DID YOU HAVE ANY FAVOURITE SPEAKERS OR CLASSES?

I had several favourite speakers throughout the various modules. I would not have predicted prior to the start of the program that Valuation and Quantitative Methods & Analysis would be in my top three. Module 3 in Paris was a collective standout for me based on the wide array of topics and speakers.

“

I feel a greater sense of responsibility to contribute to and impact the global community both personally and professionally. It is a privilege to be affiliated with this notable alumni network and to have relationships that will last well beyond the program.”

TAMIKA JEAN-BAPTISTE
Class of 2020

Parting thoughts...

I would highly recommend the program and advise anyone embarking on the TRIUM journey to be open to all the program has to offer, including cohort, courses, cultural experiences and the program administrators.

Our Alumni

share the reasons they chose TRIUM above all others.

WHY I CHOSE TRIUM

SWAADY MARTIN

CLASS OF 2012
SERIAL ENTREPRENEUR & WRITER, FOUNDER OF YSWARA

I chose the TRIUM Executive MBA because it was undoubtedly the best-suited program to help me cultivate the skills I require to play a meaningful role in the transformation of Africa and start my entrepreneurial journey. Learning from 3 of the world's most prestigious business schools placed me at the epicenter of innovative and cutting-edge cross-cultural management. In addition, the multi-site teaching and the permeability between the 3 schools broadened my perspective and helped me think innovatively about solutions to address some of Africa's critical issues, which are generally complex and cross-disciplinary. It was truly one of the best time and financial investments I've made. I treasure every memory of this incredible experience.

FRANCK JUHEL

CLASS OF 2018
PRESIDENT FOR MONTBLANC LATIN AMERICA, CARIBBEAN AND TRAVEL RETAIL AMERICAS

Participating in modules that were delivered in key cities and countries relevant for that particular focus was inordinately valuable. Learning about Asian financial markets while attending NYU Shanghai, or entrepreneurship and technology from Silicon Valley, adds a depth to comprehension and insight that can't be gained from being in a single faculty in another part of the world. This style of learning is invaluable. I would also say the caliber of the executives on the TRIUM program was also a significant factor – learnings would come from each of them given their experience and leadership role they play in their respective fields.

SID KEDIA

CLASS OF 2018
CHIEF EXECUTIVE OFFICER, NODWIN GAMING

There were three factors that made me choose TRIUM. First, the experience and age profile of TRIUM cohorts was more aligned with the stage of life I was in. Second, the program brought together three of the best schools in the world and hence gave it a very diverse and rich curriculum. Last, the Capstone was another big draw for me as at that time I was also thinking of starting my entrepreneurial journey and the capstone was an exceptionally rich opportunity to put learned theory into practice and to work cohesively with a diverse and geographically spread-out team members.

KALPANA SANKAR

CLASS OF 2012
FOUNDER, HAND IN HAND INDIA & MD, BELSTAR

TRIUM has given me a strong overview of finance, strategy and negotiation that proved extremely helpful for goal setting, vision building and enhancing productivity at the work place. Personally, TRIUM has given me immense self-confidence, I started imbibing best corporate practices from my peers in terms of creating shared value and governance. This helps me in my day to day functioning, making me more systematic and professional. It was also a wonderful opportunity to learn from different cultures.

10.

Our Alumni

share the reasons they chose TRIUM above all others.

WHY I CHOSE TRIUM

EVA KIENLE

CLASS OF 2014
CHIEF FINANCIAL OFFICER, KWS SAAT SE

Globalization had changed the world significantly since the beginning of the century, new markets were emerging, and innovation and product and service development were getting faster and faster; I wanted to better understand and get an insight into the roots and consequences – current and future – of these changes. TRIUM was a program that was out of the ordinary and of higher interest to me than the classical Ivy League EMBA's. Everyone was very open and had an eager-to-learn attitude. We connected right away. We share the same set of values.

XIANG GAO

CLASS OF 2019
VICE PRESIDENT (HOLDINGS) &
CHAIRMAN (SUBSIDIARY) AT YADA
INTERNATIONAL HOLDING LTD

TRIUM is a superb platform that offers simply the best. It is extremely dynamic, intellectually challenging yet rewarding, and absolute fun. I come to TRIUM to become a better version of myself and I return to my country fulfilled. More importantly, I'm able to harvest a world-wide network and life-long friendships. I'm overjoyed and honoured to be a TRIUMer.

STEVE ZHAO

CLASS OF 2018
PARTNER AT ZHONG LUN LAW FIRM

Business is ultimately about understanding people – their needs and their capabilities – and knowing how to organise those capabilities to best satisfy those needs. Understanding requires knowledge, and knowledge requires communication. TRIUM has provided me with the ideal place to communicate with people from all corners of the world, and learn about their needs and capabilities, beyond the superficial level.

DR MARTIN HOFMANN

CLASS OF 2019
HEAD OF GROUP HR DIGITALIZATION, CONSULTING CENTER &
RECRUITING, VOLKSWAGON

One of the major advantages I see in TRIUM is the strong connection between social and economic values. By addressing different perspectives and adding a political, social, and in some cases a moral reflection about the learning content, the discussion in and outside the classes help to shape a global mindset. As I see this mindset change as a main differentiator for career progress, TRIUM helped me to push my personal growth in this field.

“

I worked alongside an incredible international network of diverse, smart, capable, warm and compassionate human beings. **It takes all types of people to create the future:** thinkers and doers, logical pragmatists, innovators and intuitive visionaries, experts and generalists and bright lights that thrive on transformation rather than incremental change. It was a great privilege to join leading scientists, professors, experts, entrepreneurs, corporates and investors from all over the world in my TRIUM cohort to both collaborate and co-create.
